

Manifold Valves

AD Series

AD-2
2 Valve Manifold

AD-3
3 Valve Manifold

AD-5
5 Valve Manifold

Features

- ▶ Available in 2 valve / 3 valve / 5 valve manifold
- ▶ Material SS316 / SS304
- ▶ 1/2" npt connection or other
- ▶ Pressure rated 6000 psi and higher

Applications

Manifolds are used for flow control. 3 way or 5 way type manifolds are used along with Differential Pressure Transmitter / Differential Gauges.

How to Inquire:

Send you inquiry with details like-

- 1) Type 2 way or 3 way or 5 way
 - a) 2 way AD-2- Angle Type, In-Line, 180 deg taper, Pipe to Flange
 - b) 3 way AD-3 - Pipe to Pipe, Pipe to Flange, Flange to Flange. Direct Mount
 - c) 5 way AD-5 - Pipe to Pipe, Pipe to Flange, Vertical Bonnets, Valve Direct Mount
- 2) Thread Connection
- 3) Material: SS316 or SS304
- 4) Pressure Range
